

2019 NRL NATIONAL COMPETITION

MAY 17 - MAY 18

TEAM AND VOLUNTEER REGISTRATION TO OPEN BY FEBRUARY 2019.

Perhaps all forms of chaos and destruction aren't created equal.

Sparks will Fly and Metal will definitely Crunch at the NRL 2019 National Competition at the Convocation Center on the campus of California University of Pennsylvania on May 17-18.

Join us in the name of maximum carnage. Take advantage of this opportunity to test your Bot against the best from across the country. Win or lose or grimace or grin, you will walk away in the aftermath of battle with a deeper, real-world understanding on how well you manufactured your radio-controlled, mechanized creations.

This is your chance to experience an unforgettable event to close out your school year. Come participate in this double elimination competition against Bots of all different designs and shapes. This is Full Contact Innovation at its best. Will your Bot dish out the most damage while being able to withstand destruction from its opponents in order to be named the NRL 2018 Grand Champion!
