

ATMA Industry Partner Membership

The ATMA Industry Partner Membership Program is an assignment of the by-laws that state: Any firm, person, corporation or other business entity not eligible for regular membership, but which is regularly engaged in providing trade related services, equipment, or materials to the tool, die and precision machining industry is eligible to become an Industry Partner Member of this Association. The term, ‘tool and die industry’ or “industry” shall include the designing, manufacturing, repairing or assembling for sale of dies, jigs, fixtures, tools, molds, gages, special purchase machinery and precision machined products. Associate members shall constitute no more than fifty percent (50%) of the regular membership and are not required to be members of the national association.
